

# The Kinn Story

Kinn creates stronger bonds between people and pets through revolutionary products designed to improve the quality of life for people, pets, and the planet.

Healthier Pets Create Stronger Bonds — this is our core belief at Kinn. This is WHY we founded our company, and love what we do every day. This belief drives everything we do. We do all we can to make pets healthier and improve the relationships between pets and their people.

We also believe that pets are family, pets are kin. We named our company Kinn, with an extra “n” to constantly remind us to nurture the relationships we have with our pets. This is WHO we are.

Our tagline “nurture by design” describes HOW we do what we do. Our background and culture is all about Design.

Specifically, WHAT we do is design and market innovative products that solve significant problems in pet care.

Kinn’s VALUES are innovation, sustainability, and trust.

Kinn’s product line is proudly assembled, packaged, and inspected in the USA by an amazing team of developmentally disabled adults.

# Kleanbowl™

## The Healthier Pet Bowl™

Pets smell that Kleanbowl is plaque and germ-free, and:

**EAT**   
all their food for  
healthier nutrition

**DRINK**   
more water for  
healthier hydration

**ENJOY**   
more water which rinses  
away more plaque bacteria  
before it hardens onto teeth

**ORAL WELLNESS  
CAN ADD UP TO  
4 YEARS TO YOUR  
PET'S LIFE.**   
(see other side)

Biodegradable  
Nourish-Pet Refill

(Frame goes ON TOP of refill)

Germ-resistant  
Stainless Steel Frame

100% Germ-free  
Pet Bowl for Food & Water

**WIPE CLEAN  
FRAME**

=

**Kleanbowl SAVINGS**  
over the life of your  
pet are **SIGNIFICANT**.\*

Dental Disease Treatment Cost + Water + Soap + Energy + Greenhouse  
Gases Societal Cost + Costs from Unplanned Veterinarian Visits +  
The Value of Your Time.

**RECYCLING**  
is **BETTER** than Washing

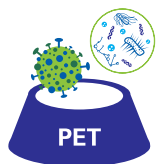

Recycling Kleanbowl Nourish-Pet Refills in the paper stream  
creates **LESS WASTE** than washing† ordinary bowls by saving  
energy and green house gases, and serves as a replacement  
for virgin paper materials.

\*Life-Cycle Analysis (LCA) of a standard industry stainless steel pet bowl vs. a Kinn Kleanbowl conducted by Sterling Consulting in partnership with Pet Sustainability Coalition. Frequency of home washing per recommendations from the FDA Center for Veterinary Medicine over the lifetime of your pet. Frances Moore from Stanford's School of Earth Sciences. Estimate based off average dishwashing soap sold on Amazon.

# Caring for your PET and the PLANET is EASY with Kinn Kleanbowl™

**PET**  
Over 1,000,000  
dangerous GERMS are  
in their pet bowl<sup>1</sup>

Water fountain carbon  
filters & paper food trays  
spread GERMS<sup>2,3</sup>

Dishwashers **DO NOT**  
get hot enough  
to kill all GERMS<sup>4</sup>

GERMS form plaque  
which cause tartar, gum  
disease & bad breath<sup>5</sup>

<sup>1</sup>NSF International; 473,828 per 10 sq cm, including Salmonella, E.Coli, Staph Aureus and yeast/mold. <sup>2</sup>The Healthy House Institute, LLC. <sup>3</sup>Amazon consumer reviews. <sup>4</sup>Canadian Veterinary Medical Association and National Center For Biotechnology Information, The following percentage of pet bowls still had Salmonella after being 'cleaned' as indicated: 75% after cleaning with soap/hot water, 67% after cleaning in a dishwasher, 33% after cleaning with bleach. <sup>5</sup>The Sound Cat Veterinary Hospital and Bat County Pet Sitting.

Watch the videos at [KinnKleanbowl.com](http://KinnKleanbowl.com) & [TheHealthierPetBowl.com](http://TheHealthierPetBowl.com)

**Pets need more water than people to be healthy.**

**Pets are 80% water vs. 60% for humans. Your pet needs an ounce of water per pound of weight every day.**

**Healthier oral wellness can add up to 4 YEARS to your pet's life<sup>†</sup>:**

- Drinking more water rinses away plaque before it hardens on tooth enamel
- Reduces inflammation and damage to organs
- Healthier heart, lungs, immune system, liver, kidneys, and stomach
- Replacing Refills once a day for water and after every meal eliminates plaque bacteria and helps to promote optimal nutrition, hydration, and oral wellness

**Let Your Pet Decide if They Prefer the Healthier Pet Bowl.**

**Pets Prefer a Plaque & Germ-Free Bowl —  
Take the Kleanbowl Challenge!**  
**SEE HOW @ [KLEANBOWLCHALLENGE.COM](http://KLEANBOWLCHALLENGE.COM)**

# TOP 10 REASONS

## Pet Parents Should use a Kinn Kleanbowl™

- 10** Over 1,000,000 dangerous germs are in their pet's food/water bowls including E.coli, Salmonella, Staph/Aureus, and/or Yeast/Mold.<sup>1</sup>
- 9** Soap & hot water **DO NOT** get hot enough to kill Salmonella, often E.coli, and other dangerous germs.<sup>2</sup>
- 8** Dishwashers **DO NOT** get hot enough to kill Salmonella and other dangerous germs.<sup>3</sup>
- 7** Bleach and disinfectants **DO NOT** kill all dangerous germs, and are toxic to animals/environment.<sup>4</sup>
- 6** Water fountain carbon filters and paper food trays spread germs, while biofilms in ordinary water bowls team with dangerous germs.<sup>5</sup>
- 5** Pets with compromised immune systems – including puppies, kittens, senior pets, and sick pets – are especially vulnerable to infections from bacteria and viruses from pet bowls.<sup>6</sup>
- 4** Germs in pet bowls contribute to finicky eating, poor nutrition, and dehydration as dogs and cats can smell germs.<sup>7</sup>
- 3** Germs in bowls also are associated with 3 of the top 6 reasons Vets see a pet including stomach upset, diarrhea, intestinal inflammation, etc.<sup>8</sup>
- 2** Germs from teeth & gums ingested through the blood stream cause disease and organ failure affecting your pet's heart, brain, lung, kidney and liver. This can take 4 years off your pet's life.<sup>9</sup>
- 1** Your pet is family, your pet is Kinn, and deserves a long, healthy life. Kinn Kleanbowl: Germ-free, guaranteeing healthier hydration, nutrition, and quality of life.<sup>10</sup>

**KLEANBOWL BONUS:** Recycling sugar cane fiber refills into the paper stream creates **LESS WASTE** than dishwashers by saving electricity, greenhouse gases, and virgin paper materials.<sup>11</sup>

ORAL WELLNESS  
CAN ADD UP TO  
4 YEARS TO YOUR  
PET'S LIFE.

TO LEARN MORE OR PURCHASE PLEASE VISIT  
**KINNINC.COM/PRODUCTS/V-TECH**

©2020 Kinn, Inc. All Rights Reserved. Patented. Patents Pending. Meets FDA and USDA specifications. V-Tech and Krush & Kut are assembled in the USA of US and Foreign parts. 90-day warranty. Kinn Kudose V-Tech is designed and patented to use only Kinn Pill Pouches. Pouches are made in the USA using Solar Power of 100% recyclable polyethylene.

# KUDOSE V-TECH WORKS

## GOT PET PILLING PAINS? Get the Kudose V-Tech Pill Crusher and Splitter System

### ► WHY IT WORKS

- Precision blade for accurate doses
- Pill Organizing Pouches to ensure every pet gets the right dose at the right time
- Pill Pouches are puncture-resistant, up to 4 times thicker vs. standard pouches, and resealable for better control and less mess
- System **SAVES PILLING TIME AND MONEY** for greater pet interaction time 
- Mix crushed pill in pouch with treat, food, and/or water to easily create a pill concealer
- Reuse & recycle pouches for a healthier planet

 Kudose V-tech Crushing Pouches are made in the USA using Solar Power.

Use a Kinn Kleanbowl Nourish-Pet Refill to serve the crushed pill hidden in a treat, food, or water. Pets SMELL that the Kinn Refill is free of cleaning chemicals and viruses and bacteria dishwashers do NOT enough to kill so they are more likely to ingest all their medicine. # CASE STUDY

## Life Cycle Assessment

### What is an LCA?

- » An assessment tool that analyzes the full scope of environmental impact over the life of a product, from design to production to consumption to end of life.

### Why does a company perform an LCA?

- » Informs product design and innovation to address most significant areas of environmental impact
- » Alerts company to significant supply chain risks and opportunities
- » Supports stakeholder engagement, ensuring issues customers care about are actively managed and communicated

*"Performing an LCA was invaluable to us. It has given us a broader strategy for innovating solutions that fit our customers needs"*

- Alex McKinnon, Kinn, Inc.

# RESULTS

## PRODUCT INNOVATION

Financial and environmental wins include future opportunity to light-weight frame

## NEW MARKET OPPORTUNITY

The Kinn Kleanbowl LCA revealed a new market opportunity within the pet boarding market.

## BRAND LEADERSHIP

Kinn has verified data to support development of brand communications.

*“This was a win-win for everyone - pets, customers, suppliers, the environment, and our business”!*

### Data Analysis

The following impacts were evaluated including all product life stages modeled in a pet boarding facility open 7 days week. **The Kleanbowl outperformed the industry average bowl in all areas.** \*Assumes facilities follow veterinary recommendations for washing practices.

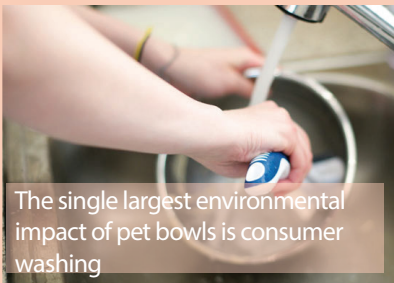

#### Waste Impact 122% Reduction

\*The Kleanbowl has a negative waste impact due to the original material use of sugarcane waste.

#### Green House Gas Impact 20% Reduction

#### Energy Impact 18% Reduction

#### Water Impact 1% Reduction

### Pet Boarding Facility Savings

# CARE for your PET and the PLANET

Kinn Kleanbowl creates LESS WASTE and is HEALTHIER than ordinary pet bowls.

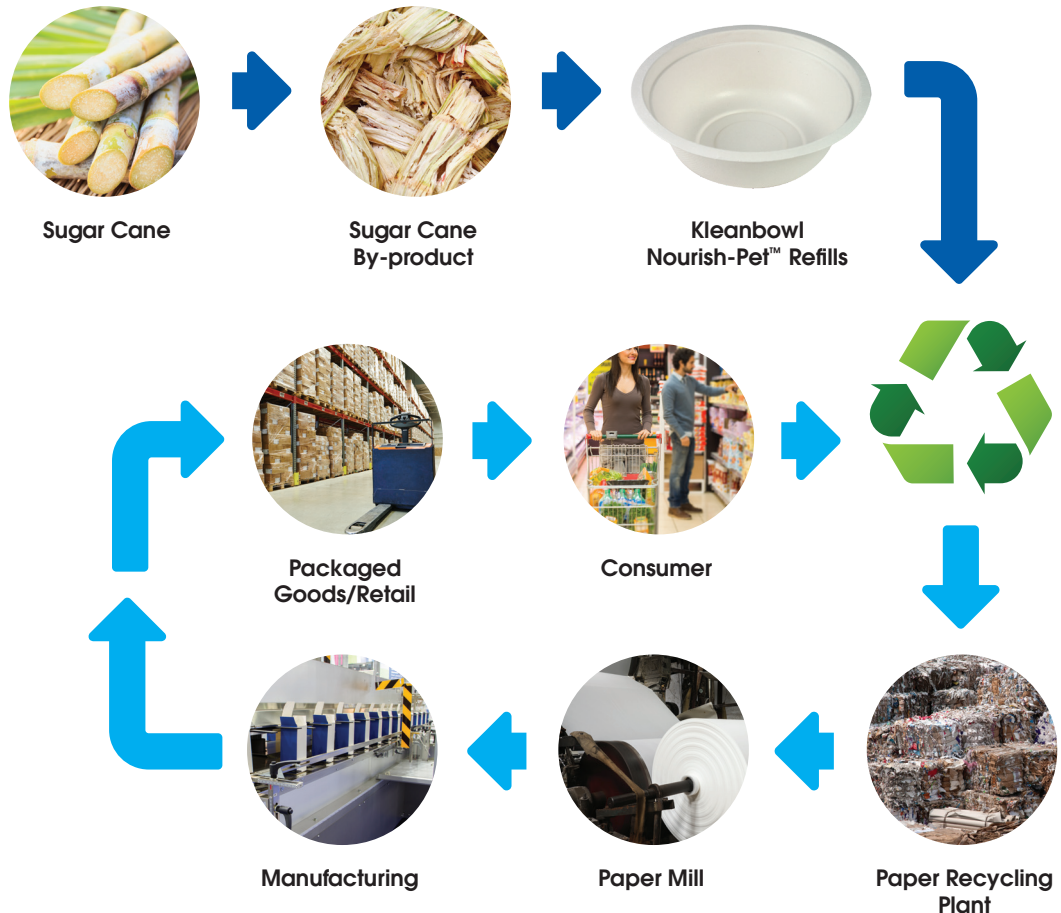

Reduce electricity, water, waste, and greenhouse gases by recycling sugar cane fiber, a renewable by-product, in the paper stream.

Kleanbowl Refills are made of sugar cane fiber, a sustainable by-product of the sugar cane refining process. Sourcing of sugar cane fiber has a **negative carbon footprint** as it is commonly burned as a waste product, and sugar cane is a renewable resource.

**100% biodegradable, compostable & recyclable,** Kleanbowl Refills can be repeatedly recycled in the paper stream.

Recycling Kleanbowl sugar cane fiber Refills creates **negative waste** by saving energy and Green House Gases as a replacement of virgin materials in future products.

Kinn Inc & OPARC are working together to transform local communities and provide one-of-a-kind opportunities to developmentally disabled adults. Together we are helping to make a happier, healthier, and safer planet for people and pets.

**Timmy** has been with OPARC for over 21 years, Timmy never stops developing work skills and relationships.

Timmy enjoys working in OPARC's Work Activity Program where participants receive vocational training and skills, speech therapy, paid work experience, and individual case management services. He currently works in general assembly and packaging and loves his job.

# OPARC SUCCESS STORIES

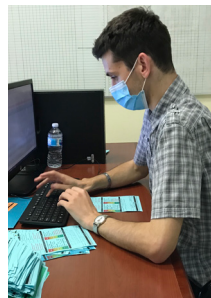

**The OPARC mission is to support, employ, and transform the lives of people with disabilities.**

**Justin** participates in the OPARC Explore program. During the hiatus of usual programs due to COVID, he requested to purchase a tablet for himself so he could join in the OPARC group Zoom calls.

There has been an incredibly positive shift in his engagement. "During the time he has been at home, his communication skills, as well as his confidence with speaking and engaging, have

skyrocketed." He has greater confidence and giving more detailed answers than ever before. These skills will serve him well with future employment.

**William** joined OPARC in 2018 and attended every job prep class and meeting with his Job Developer at OPARC.

In 2019, a Paid Internship Program (PIP) was developed for him at Nestle, where he started a paid internship in August, 2019. Three months later William was hired directly by Nestle and he remains competitively employed there to this day. His primary job

duty is centered on data entry. His supervisors at Nestle speak very highly of William and his work ethic.

**Kinn has been working with OPARC since 2014. Our team values our partnership, and looks forward to an ongoing relationship for many more years to come. For more information visit [kinninc.com](https://kinninc.com).**

**Kinn** creates stronger bonds between people and pets through revolutionary products designed to improve the quality of life for people, pets, and the planet.

# WHY HAVEN'T YOU SWITCHED TO KLEANBOWL?

Kinn Kleanbowl Reduces Bowl Cleaning Time by 80% Guaranteed

WHAT WILL YOU DO WITH THIS SAVED TIME?  
LABOR COST SAVINGS OR MORE CARE REVENUE?

## ► HOW IT WORKS

- Kinn Kleanbowl is a 2-part system
- Assign frame and hang on enclosure
- Fill refills with food and/or water
- Wipe frame clean only when needed
- Recycle refills
- Sanitize frame when pet checks out

S-hooks or Command hooks are recommended for hanging.  
We recommend using eco-friendly wipes.

## RECYCLING is BETTER than Washing

Recycling Kleanbowl Nourish-Pet Refills in the paper stream creates **LESS WASTE** than washing<sup>1</sup> ordinary bowls by saving energy and green house gases, and serves as a replacement for virgin paper materials.

CHECK OUT CLIENT VIDEOS AT  
[PetProBowl.com](https://PetProBowl.com) + [KleanbowlWorks.com](https://KleanbowlWorks.com)

# WHY IT WORKS

- **Reduces Labor Hours Spent Bowl Washing by 80% for Lodging**

70 hours per month saved for 40 occupied enclosures

- **Labor Cost Savings**

Reduce pet bowl cleaning labor and material costs 20-40%

- **More Care Revenue**

Use saved cleaning time to generate thousands of dollars of revenue per year

- **Better Staff Engagement**

Employees love Kleanbowl which improves retention and cost savings

- **Better Sanitation vs. Washing**

Reduces cross-contamination risk between humans and pets

Washing/Sanitizing Task Per Guest, Average 4-day Stay

**12 ordinary stainless steel bowls**  
**vs.**  
**2 Kleanbowl frames**

Hourly Wage: **\$10**

15 minutes saved per average pet's stay x 1 year =

**\$149 SAVED PER YEAR PER ENCLOSURE**

\$149 x 40 occupied enclosures =

**\$5,960 NET ANNUAL SAVINGS on labor and material costs**

Monthly Care Revenue:

**15 MIN SAVED PER AVERAGE PET'S STAY**

**4 STAYS**

**PER ENCLOSURE PER MONTH**

**= 1 HOUR SAVED**

**PER ENCLOSURE PER MONTH**

**1 X 40 ENCLOSURES = 40 HOURS TO UPSELL/DELIVER OTHER SERVICES**

**40 HOURS X \$20 PER HOUR CHARGE FOR SERVICE = \$800 PER MONTH OR**

**\$9,600 ANNUALLY**

Recycling/composting Kinn sugarcane fiber Nourish-Pet Refills eliminates 100% of viruses and bacteria in the bowl. Ordinary bowls that were hand washed with soap, water and bleach or cleaned in a dishwasher still had viruses and/or bad bacteria, e.g. salmonella.\*

## Did you know?

- Preventative oral health care can add up to 4 years to your pet's life and save you money.
- By age three, 85% of dogs and cats have dental disease.
- Reducing oral plaque helps prevent dental disease and reduces the bacteria entering the bloodstream which cause heart, liver and kidney disease.
- Pets need more water than people to be healthy. Pets are 80% water vs. 60% for humans. Your pet needs an ounce of water per pound of weight every day.

**Recycle Kleanbowl Nourish-Pet Refills to eliminate all pet bowl germs and reduce plaque-forming bacteria in your pet's mouth. Pets smell the germ-free water, and drink more of it—not only improving hydration, but washing away more plaque before it sticks to tooth enamel.**
