RECYCLING
is **BETTER** than Washing

Recycling Kleanbowl Nourish-Pet Refills in the paper stream creates **LESS WASTE** than washing† ordinary bowls by saving energy and green house gases, and serves as a replacement for virgin paper materials.

*Life-Cycle Analysis (LCA) of a standard industry stainless steel pet bowl vs. a Kinn Kleanbowl conducted by Sterling Consulting in partnership with Pet Sustainability Coalition. Frequency of home washing per recommendations from the FDA Center for Veterinary Medicine over the lifetime of your pet. Frances Moore from Stanford's School of Earth Sciences. Pets need more water than people to be healthy.

Pets are 80% water vs. 60% for humans. Your pet needs an ounce of water per pound of weight every day.

Healthier oral wellness can add up to 4 YEARS to your pet's life[†]:

- Drinking more water rinses away plaque before it hardens on tooth enamel
- Reduces inflammation and damage to organs
- Healthier heart, lungs, immune system, liver, kidneys, and stomach
- Replacing Refills once a day for water and after every meal eliminates plaque bacteria and helps to promote optimal nutrition, hydration, and oral wellness
