

Best Practices for Kleanbowl with Unruly Pets

1: Choose the right size Kleanbowl.

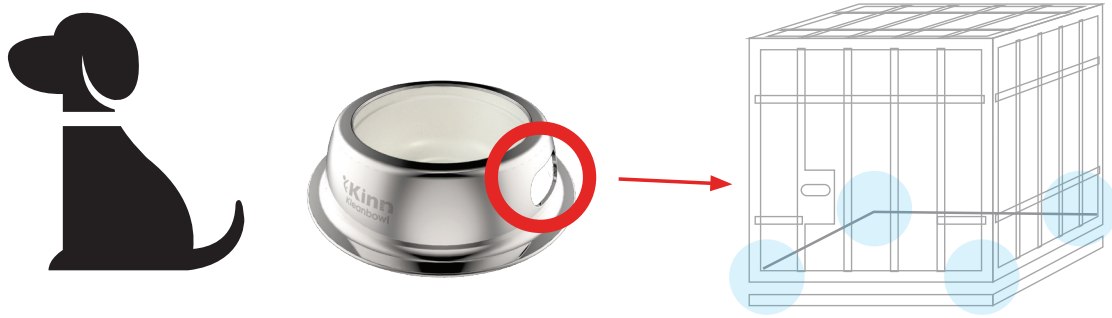

2: Choose the right placement for food & water.

3: Place finger-port hole facing away from the pet.

The finger-port holes should face the corners of the enclosure.

4: Remove empty refills from food bowls as soon as possible and hang frame on enclosure.

S-hooks or Command hooks are recommended for hanging.
We recommend using eco-friendly wipes.

5: Sandwich the refill between two frames.

Only if necessary for the top 5% of rambunctious dogs.

6: Replace refills every 24 hours.
